

PRESS RELEASE

The Sener Foundation sponsors the Air and Space Army Award for University Aerospace Research

Madrid, 2023 – On June 27, the [Air and Space Army Awards](#) ceremony took place, which this year was sponsored by the [Sener Foundation](#) in the category of University Aerospace Research. [The meeting](#), presided by Minister of Defense, Margarita Robles. The event was also attended by [Sener Aeroespacial's](#) General Manager, [José Julián Echevarría](#).

In the category sponsored by the [Sener Foundation](#), the winner was [Enrique Cabezas Castaño](#), for his work '[Study to the approval for the use of biofuel on CASA C101 aircraft of the Spanish Air Force](#)'. The object of this work highlights the commitment of the Air Force with the protection of the environment and with the pursuit of energy efficiency framed within the national, European and NATO strategic objectives. The research itself has a very important practical application both in flight and on the ground and is supported by exhaustive knowledge of military and civil regulations. This is a pioneer study that establishes a line of great application in future platforms.

With these awards, which this year celebrate their 18th edition, the Air and Space Army and the Sener Foundation aim to highlight the work of researchers and scientists as the main agents for the advancement of society and drivers of [development and innovation in the aerospace industry](#). The sponsorship of the Air and Space Army Awards by the Sener Foundation is one more example of the entity's commitment to promoting scientific research to improve people's lives.

About the Sener Foundation

The Sener Foundation was created in May 2002 by the Sener Engineering Group and the Sendagorta family to promote humanitarian initiatives and activities. Over its years of activity, the Sener Foundation has been working in social services at the community level by developing social responsibility in professional activities, training people, and promoting research at the highest level.

The activities carried out by the Sener Foundation include encouraging scientific research at the highest level by presenting prizes, such as the [Award for Best Doctoral Thesis in Engineering](#), sponsoring the Air Force Award for university aerospace research, and supporting [R&D projects](#) in technology centers and universities. Similarly, the Sener Foundation promotes [corporate volunteering](#) among SENER staff and encourages young people to pursue careers in science through [A Challenge for Science](#).

About Sener

Sener is a private engineering and technology group founded in 1956, which seeks to offer its clients the most advanced technological solutions and which enjoys international recognition thanks to its independence and its commitment to innovation and quality. Sener has 2,700 professionals on five continents. Sener works in the Aerospace, Energy, Infrastructure, Digital and Marine sectors, in addition to promoting, with industrial participations, companies working in renewable energies, through Sener Renewable Investments.
